

**STATISTICA VERSION 12
CONCURRENT NETWORK LICENSE
DOMAIN BASED REGISTRATION
INSTALLATION INSTRUCTIONS**

Notes

1. The installation of the Concurrent network version entails two parts: a) a server installation, and b) workstation installations on each of the client machines.
2. The server installation must be performed by a user with Administrator permissions to the server. The installation makes necessary changes to the system. Each client installation must be performed while logged on as an Administrator to the client computer. If you are prompted to reboot during the installation, you must log on with Administrator permissions after rebooting to complete the installation successfully.
3. If you have a previous version of *STATISTICA* on your computer, uninstall the program (see page 4 for uninstall instructions). Note that this method of removing *STATISTICA* will not affect or delete any data files created with previous installations. Once this is complete, proceed with the installation instructions.
4. All workstations must have Microsoft Internet Explorer version 7 or later installed.
5. The server must be installed to a Windows 2003 operating system or later.
6. This software performs an automatic license registration online. Therefore, it is necessary to perform this installation on a computer that is connected to the Internet.

Server Installation

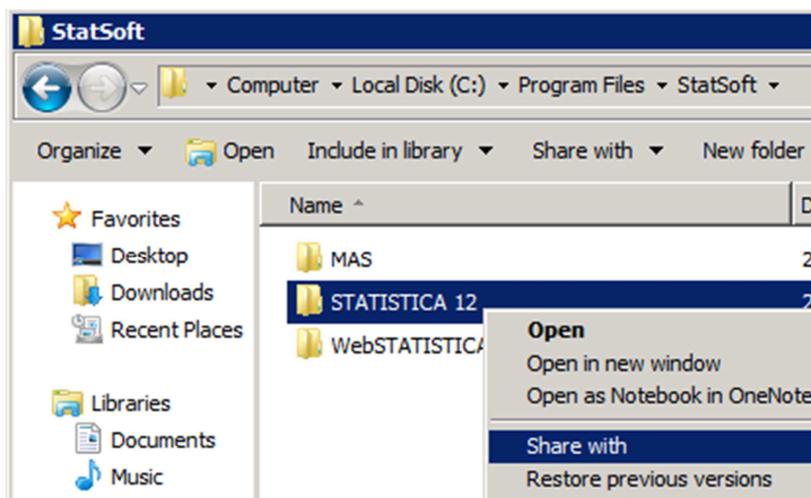

1. Ensure that no other applications are running.
2. Insert the *STATISTICA* DVD into the DVD drive. The installation process should begin automatically, and the *STATISTICA* installation dialog box will be displayed. Click the *Install STATISTICA* button. Note: If the DVD does not auto-start, browse the DVD and double-click on *CDSTART.exe*.
3. The *Welcome* dialog box will be displayed. Click the *Next* button.
4. In the *Serial Number / CD Key* dialog box, enter the *Serial Number* and 20-character *CD Key* in the respective boxes. Note: It is important to use the complete keyset as provided by StatSoft. Click the *Next* button to continue.
5. In the *Network ID / Install Code* dialog box, enter the *Install Code* (note that a Single User installation does not require a Network ID). Click the *Next* button to continue.
6. In the *License Agreement* dialog box, read the software license agreement. Select the

I accept the terms in the license agreement option button, and click the *Next* button if you agree with the terms and want to continue the installation process.

7. In the *Setup Type* dialog box, select either the *Typical* option button or the *Custom* option button. *Typical* setup will install *STATISTICA* with the most common options; this is the recommended selection. *Custom* setup options are not covered in these instructions. If you have questions about the custom installation, contact StatSoft for Technical support <http://www.statsoft.com/support>. Click the *Next* button to continue.
8. In the *Install Multimedia* dialog box, specify whether to install the multimedia files to your hard drive. These are videos providing overviews of various aspects of the *STATISTICA* system. It is recommended that you install them if you have sufficient disk space, but they can also be viewed from the DVD at any time. Click the *Next* button to continue.
9. In the *Start Menu Folder* dialog box, enter the Start Menu folder name; the default name is *STATISTICA 12*. If you want to create a desktop shortcut to *STATISTICA*, select the check box. Click the *Next* button to continue.
10. In the *Register with StatSoft* dialog box, enter the requested information. This information is required to obtain the final licensing file for your software. Click the *Next* button to continue.
11. In the next dialog box, you will be informed that your license registration is pending and that a registration email has been sent to you.
12. Open your company (or university) email application and open the registration email from license@statsoft.com. The email will ask you to verify your email address in order to continue the installation of *STATISTICA*. Click on the hyperlink in the email. Alternately, you can copy and paste the link, in its entirety, into the address bar of your web browser.

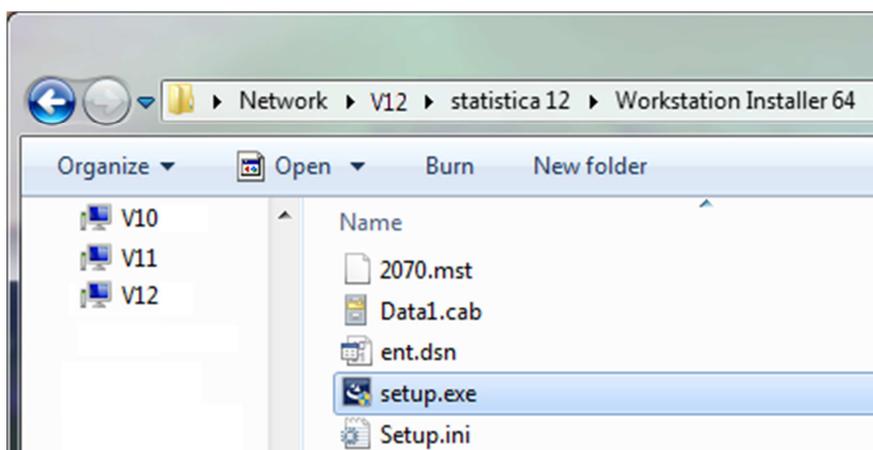

Note: If you do not receive an email from license@statsoft.com, look in your Junk E-mail folder. Due to the hyperlink in the email, your email application may have flagged the email as spam. Or, there may be an issue with your internet connection or firewall.
13. In your Web browser, the *StatSoft Email Address Confirmation* Web page will be displayed. Your email address has been confirmed.
14. Return to the installer and click the *Continue* button to finish the installation of *STATISTICA*. If you have closed the installer, restart it and continue.
15. *STATISTICA* will now attempt to register your software. A dialog box stating that your license has been successfully registered will be displayed. Click the *OK* button. If the registration process fails, a different dialog box will be displayed, indicating the failure. See the *Notes* on page 5 for additional details of failed registration.
16. *STATISTICA* is ready to install. To begin copying files to your machine, click the *Install* button.

17. A message will be displayed stating that the installation is complete. You may be prompted to reboot now or reboot later, depending on the components that were installed on your machine. If you are prompted, it will be necessary to reboot before you run *STATISTICA*. Click the *Finish* button to complete the installation process.
18. Create a share to the *STATISTICA* executable directory. This share needs to be available to all users who need to run the workstation installation. Users must have read and execute permissions to all files and subfolders.

Workstation Installation

1. Ensure that no other applications are running.
2. Locate the share that you created (step 18 above) when the *STATISTICA* program files were installed on the server. Double-click the *Setup.exe* file in *Workstation Installer* or *Workstation Installer 64* subfolder.

3. The *Welcome* dialog box will be displayed. Click the *Next* button.

4. In the *License Agreement* dialog box, read the software license agreement. Select the *I accept the terms in the license agreement* option button, and click the *Next* button if you agree with the terms and want to continue the installation process.
5. In the *Setup Type* dialog box, select either the *Typical* option button or the *Custom* option button. *Typical* setup will install *STATISTICA* with the most common options; this is the recommended selection. *Custom* setup options are not covered in these instructions. If you have questions about the custom installation, contact StatSoft for Technical support <http://www.statsoft.com/support>. Click the *Next* button to continue.
6. If multimedia files were installed on the server, the *Install Multimedia* dialog box will be displayed. Specify whether to install the multimedia files to your hard drive. These are videos providing overviews of various aspects of the *STATISTICA* system. It is recommended that you install them if you have sufficient disk space. Click the *Next* button to continue.
7. In the *Start Menu Folder* dialog box, enter the Start Menu folder name; the default name is *STATISTICA 12*. If you want to create a desktop shortcut to *STATISTICA*, select the check box. Click the *Next* button to continue.
8. *STATISTICA* is ready to install on your workstation. To begin copying files to your machine, click the *Install* button.
9. Your system will be updated and program files will be installed. Click the *Finish* button in the *Setup Wizard Completed* dialog box.
 - If you receive any Version Conflict messages, it is recommended that you keep your existing file (click the *Yes* button).
 - If the workstation's system files need to be updated, you must restart your computer to finish the installation process.

Server Uninstall

To uninstall the *STATISTICA* server, follow these steps:

1. Ensure that no other applications are running.
2. From the *Control Panel*, select *Add or Remove Programs* (Windows Server 2003) or *Uninstall a program* located under *Programs* (Windows Server 2008).
3. Scroll down through the list of programs and select *STATISTICA*. Click either *Remove* (Windows Server 2003) or *Uninstall* (Windows Server 2008) to uninstall the program.
4. A message will be displayed to confirm that you want to uninstall *STATISTICA* from your computer. Click the *Yes* button, and *STATISTICA* files will be uninstalled.
5. When the uninstall process is complete, click the *Yes* button to notify the StatSoft registration server. This will allow you to install the server on another computer.

Workstation Uninstall

To uninstall a *STATISTICA* workstation, follow these steps:

1. Ensure that no other applications are running.
2. From the *Control Panel*, select *Add or Remove Programs* (Windows XP) or *Uninstall a program* located under *Programs* (Windows Vista or Windows 7).
3. Scroll down through the list of programs and select *STATISTICA*. Click either *Remove* (Windows XP) or *Uninstall* (Windows Vista or Windows 7) to uninstall the program.

Notes on Failed Registration

The software registration process can fail for several reasons including: exceeding the allowed number of installations for a serial number, lack of internet connection on the installed machine, incorrect serial number, or other technical difficulties.

1. If you want *STATISTICA* installed on an additional computer, contact StatSoft for information on our policy and additional pricing.
2. If some other issue has affected your registration, ensure that the computer is connected to the internet, and verify your serial number. Start *STATISTICA*. On the *Help* tab in the *Support* group, click *Register*.
3. If the registration process still cannot be completed, follow the instructions in the *STATISTICA* start-up dialog boxes, or contact StatSoft for Technical support <http://www.statsoft.com/support>.
