

List of classes conducted at the Faculty of Chemistry using distance learning methods and techniques:

Industrial and engineering chemistry

No.	Name of classes	Cycle/semester	Form of classes
1.	Physics	I/2	Lecture
2.	Chemistry	I/2	Lecture, exercises
3.	Introduction to materials	I/4	Lecture
4.	Transport phenomena	I/4	Lecture
5.	Organic chemistry	I/4	Lecture
6.	Physical chemistry	I/4	Lecture, exercises
7.	Biotechnology	I/6	Lecture
8.	Protection of Intellectual Property	I/6	Lecture
9.	Separations processes	I/6	Lecture, laboratory
10.	Membrane technology	I/6	Lecture
11.	Unit operations	I/6	Lecture
<hr/>			
12.	Principles and fundamentals of nanotechnology	II/1	Lecture
13.	Chemistry of polymer and organic nanomaterials	II/1	Lecture
14.	Economics managements	II/1	Lecture
15.	Characterization of chemical structures	II/1	Lecture
